¹ Replacement batteries may have a different capacity from that of the supplied batteries.
² By installing this unit, you can extend the range of your phone system to include areas where reception was previously not available. This product can be purchased online. Please visit our Web site: http://www.panasonic.com/RangeExtender

Other information

- Design and specifications are subject to change without notice.
- The illustrations in these instructions may vary slightly from the actual product.

Expanding your phone system

Handset (optional): KX-TGDA20

You can expand your phone system by registering optional handsets (6 max.) to a single base unit.

- Optional handsets may be a different color from that of the supplied handsets.

For assistance, please visit http://www.panasonic.com/help
For your safety
To prevent severe injury and loss of life/property, read this section carefully before using the product to ensure proper and safe operation of your product.

**WARNING**

**Power connection**
- Use only the power source marked on the product.
- Do not overload power outlets and extension cords. This can result in the risk of fire or electric shock.
- Completely insert the AC adaptor/power plug into the power outlet. Failure to do so may cause electric shock and/or excessive heat resulting in a fire.
- Regularly remove any dust, etc. from the AC adaptor/power plug by pulling it from the power outlet, then wiping with a dry cloth. Accumulated dust may cause an insulation defect from moisture, etc. resulting in a fire.
- Unplug the product from power outlets if it emits smoke, an abnormal smell, or makes an unusual noise. These conditions can cause fire or electric shock. Confirm that smoke has stopped emitting and contact us at http://www.panasonic.com/contactinfo
- Unplug from power outlets and never touch the inside of the product if its casing has been broken open.
- Never touch the plug with wet hands. Danger of electric shock exists.

**Installation**
- To prevent the risk of fire or electrical shock, do not expose the product to rain or any type of moisture.
- Do not place or use this product near automatically controlled devices such as automatic doors and fire alarms. Radio waves emitted from this product may cause such devices to malfunction resulting in an accident.
- Do not allow the AC adaptor or telephone line cord to be excessively pulled, bent or placed under heavy objects.

**Operating safeguards**
- Unplug the product from power outlets before cleaning. Do not use liquid or aerosol cleaners.
- Do not disassemble the product.
- Do not spill liquids (detergents, cleansers, etc.) onto the telephone line cord plug, or allow it to become wet at all. This may cause a fire. If the telephone line cord plug becomes wet, immediately pull it from the telephone wall jack, and do not use.

**Medical**
- Consult the manufacturer of any personal medical devices, such as pacemakers or hearing aids, to determine if they are adequately shielded from external RF (radio frequency) energy. (The product operates in the frequency range of 1.92 GHz to 1.93 GHz, and the RF transmission power is 115 mW (max.).)
- Do not use the product in health care facilities if any regulations posted in the area instruct you not to do so. Hospitals or health care facilities may be using equipment that could be sensitive to external RF energy.

**CAUTION**

**Installation and location**
- Never install telephone wiring during an electrical storm.
- Never install telephone line jacks in wet locations unless the jack is specifically designed for wet locations.
- Never touch uninsulated telephone wires or terminals unless the telephone line has been disconnected at the network interface.
- Use caution when installing or modifying telephone lines.
- The AC adaptor is used as the main disconnect device. Ensure that the AC outlet is installed near the product and is easily accessible.

For assistance, please visit http://www.panasonic.com/help
Important safety instructions

When using your product, basic safety precautions should always be followed to reduce the risk of fire, electric shock, and injury to persons, including the following:

1. Do not use this product near water for example, near a bathtub, washbowl, kitchen sink, or laundry tub, in a wet basement or near a swimming pool.
2. Avoid using a telephone (other than a cordless type) during an electrical storm. There may be a remote risk of electric shock from lightning.
3. Do not use the telephone to report a gas leak in the vicinity of the leak.
4. Use only the power cord and batteries indicated in this manual. Do not dispose of batteries in a fire. They may explode. Check with local codes for possible special disposal instructions.

SAVE THESE INSTRUCTIONS

For best performance

Base unit location/avoiding noise

The base unit and other compatible Panasonic units use radio waves to communicate with each other.

- For maximum coverage and noise-free communications, place your base unit:
  - at a convenient, high, and central location with no obstructions between the handset and base unit in an indoor environment,
  - away from electronic appliances such as TVs, radios, personal computers, wireless devices, or other phones,
  - facing away from radio frequency transmitters, such as external antennas of mobile phone cell stations. (Avoid putting the base unit on a bay window or near a window.)

- Coverage and voice quality depends on the local environmental conditions.

For assistance, please visit http://www.panasonic.com/help
**Important Information**

- If the reception for a base unit location is not satisfactory, move the base unit to another location for better reception.

**Environment**

- Keep the product away from electrical noise generating devices, such as fluorescent lamps and motors.
- The product should be kept free from excessive smoke, dust, high temperature, and vibration.
- The product should not be exposed to direct sunlight.
- Do not place heavy objects on top of the product.
- When you leave the product unused for a long period of time, unplug the product from the power outlet.
- The product should be kept away from heat sources such as heaters, kitchen stoves, etc. It should not be placed in rooms where the temperature is less than 0 °C (32 °F) or greater than 40 °C (104 °F). Damp basements should also be avoided.
- The maximum calling distance may be shortened when the product is used in the following places: Near obstacles such as hills, tunnels, underground, near metal objects such as wire fences, etc.
- Operating the product near electrical appliances may cause interference. Move away from the electrical appliances.

**Routine care**

- Wipe the outer surface of the product with a soft moist cloth.
- Do not use benzine, thinner, or any abrasive powder.

**Other information**

**CAUTION:** Risk of explosion if battery is replaced by an incorrect type. Dispose of used batteries according to the instructions.

---

**Notice for product disposal, transfer, or return**

- This product can store your private/confidential information. To protect your privacy/confidentiality, we recommend that you erase information such as phonebook or caller list entries from the memory before you dispose of, transfer, or return the product.

**Notice**

- This product is designed for use in the United States of America. Sale or use of this product in other countries may violate local laws.
- Cet appareil est conçu pour être utilisé aux États-Unis d'Amérique. La vente ou l'emploi de cet appareil dans certains autres pays peut constituer une infraction à la législation locale.
- Este producto está diseñado para usarse en los Estados Unidos de América. La venta o el empleo de este producto en ciertos países puede constituir violación de la legislación local.
- 本製品は、当社が製造した場合も含め、国外での使用に指定されています。他の国や地域での使用は法律違反となります。従って、当社では国や地域においては原則として修理などのサービスは提供出来ません。

**ENERGY STAR**

As an ENERGY STAR® Partner, Panasonic has determined that this product meets the ENERGY STAR guidelines for energy efficiency. ENERGY STAR is a U.S. registered mark.
Specifications

- **Standard:**
  DECT 6.0 (Digital Enhanced Cordless Telecommunications 6.0)

- **Frequency range:**
  1.92 GHz to 1.93 GHz

- **RF transmission power:**
  115 mW (max.)

- **Power source:**
  120 V AC, 60 Hz

- **Power consumption:**
  **Base unit**: *
  - Standby: Approx. 0.6 W
  - Maximum: Approx. 3.2 W
  **Base unit**: *
  - Standby: Approx. 0.7 W
  - Maximum: Approx. 3.5 W

- **Charger:**
  - Standby: Approx. 0.1 W
  - Maximum: Approx. 1.8 W

- **Operating conditions:**
  0 °C – 40 °C (32 °F – 104 °F), 20 % – 80 %
  relative air humidity (dry)

* KX-TGD210 series: page 3
* KX-TGD220 series: page 3
Setting up

Connections

Base unit

1. Connect the AC adaptor to the unit by pressing the plug firmly.
2. Fasten the cord by hooking it.
3. Connect the AC adaptor to the power outlet.
4. Connect the telephone line cord to the unit, then to the single-line telephone jack (RJ11C) until you hear a click.
5. A DSL/ADSL filter (not supplied) is required if you have a DSL/ADSL service.

Note:
- Use only the supplied Panasonic AC adaptor PNLV226.

Charger

1. Connect the AC adaptor to the power outlet.

Battery installation

- USE ONLY rechargeable Ni-MH batteries AAA (R03) size (\(\text{1}\)).
- Do NOT use Alkaline/Manganese/Ni-Cd batteries.
- Confirm correct polarities (\(\text{2}\), \(\text{3}\)).

Follow the directions on the display to set up the unit.

For assistance, please visit http://www.panasonic.com/help
Battery charging

Charge for about 7 hours.
- Confirm "Charging" is displayed [1].
- When the batteries are fully charged, "Fully charged" is displayed.

Note when setting up

Note for connections
- The AC adaptor must remain connected at all times. (It is normal for the adaptor to feel warm during use.)
- The AC adaptor should be connected to a vertically oriented or floor-mounted AC outlet. Do not connect the AC adaptor to a ceiling-mounted AC outlet, as the weight of the adaptor may cause it to become disconnected.

During a power failure
The unit will not work during a power failure. We recommend connecting a corded-type telephone (without AC adaptor) to the same telephone line or to the same telephone line jack using a Panasonic T-adaptor (page 5).

Note for battery installation
- Use the supplied rechargeable batteries. For replacement, we recommend using the Panasonic rechargeable batteries noted on page 5, 7.

Note for battery charging
- It is normal for the handset to feel warm during charging.
- Clean the charge contacts of the handset, base unit, and charger with a soft and dry cloth once a month. Before cleaning the unit, disconnect from power outlets and any telephone line cords. Clean more often if the unit is exposed to grease, dust, or high humidity.

*1 If eco mode is on.

Note:
- Actual battery performance depends on usage and ambient environment.

Intelligent eco mode
This feature automatically reduces handset power consumption by suppressing handset transmission power when the handset is close to the base unit.
- When this feature is activated, ECO is displayed.
- Eco mode is turned off when the clarity booster is activated (page 16).
Controls

Handset

- Soft keys

Language settings

Display language

You can select either "English" or "Español" as the display language. The default setting is "English".

1. [MENU][1][1][0]
2. [*]: Select the desired setting. → [SAVE]
3. [OFF]

Voice guidance language

Available for:

KX-TGD220 series (page 3)

You can select either "English" or "Español" as the voice guidance language of the answering system. The default setting is "English".

1. [MENU][1][1][0]
2. [*]: Select the desired setting.  
   [SAVE] → [OFF]

Date and time

1. [MENU][1][1][0]
2. Enter the current month, date, and year by selecting 2 digits for each.  
   Example: July 15, 2014  
   07 15 2014
3. [OK]
Getting Started

4  Enter the current hour and minute
(12-hour clock format) by selecting 2
digits for each.
Example: 9:30
09 30

5  Select “AM” or “PM”.

6  [SAVE] → [OFF]

Note:
• When English is selected as the display
  language, 12-hour clock format is used.
  When Spanish is selected, 24-hour clock
  format is used.

Recording your greeting
message

Available for:
KX-TGD220 series (page 3)

You can record your own greeting message
instead of using a pre-recorded greeting
message. See page 30 for details.

1  [MENU] 3 0 2
2  [*]: “yes” → [SELECT]
3  Record a greeting message. → [STOP]
   → [OFF]

Other settings

Dialing mode

If you cannot make calls, change this setting
according to your telephone line service. The
default setting is “Tone”.
“Tone”: For tone dial service.
“Pulse”: For rotary/pulse dial service.

1  [MENU] 1 0 0
2  [*]: Select the desired setting.
3  [SAVE] → [OFF]
Making calls

1. Lift the handset and dial the phone number.
   • To correct a digit, press [CLEAR].
2. [ ]
3. When you finish talking, press [OFF] or place the handset on the base unit or charger.

Using the speakerphone

1. Dial the phone number and press [ ].
2. When you finish talking, press [OFF].
   Note:
   • To switch back to the receiver, press [ ] or [ ].

Adjusting the receiver or speaker volume

Press [ ] or [ ] repeatedly while talking.

Making a call using the redial list

The last 5 phone numbers dialed are stored in the redial list (each 48 digits max.).
1. [ ] REDIAL
2. [ ]: Select the desired phone number.
3. [ ]

Erasing a number in the redial list

1. [ ] REDIAL
2. [ ]: Select the desired phone number.
   → [ERASE]
3. [ ] “y[n]” → [SELECT] → [OFF]

Pause (for PBX/long distance service users)

A pause is sometimes required when making calls using a PBX or long distance service.
When storing a calling card access number and/or PIN in the phonebook, a pause is also needed (page 20).

Example: If you need to dial the line access number “9” when making outside calls with a PBX:
1. [ ] → [ ] (Pause)
2. Dial the phone number. → [ ]
   Note:
   • A 3.5 second pause is inserted each time you press [ ] (Pause) on the handset.

Answering calls

1. Lift the handset and press [ ] or [ ] when the unit rings.
2. When you finish talking, press [OFF] or place the handset on the base unit or charger.

Any key answer: You can answer the call by pressing any dial key.

Auto talk: You can answer calls simply by lifting the handset (page 23).

Temporary handset ringer off: You can turn the ringer off temporarily by pressing [ ].

Adjusting the handset ringer volume

Press [ ] or [ ] repeatedly to select the desired volume while ringing.

Adjusting the base unit ringer volume

Available for:
KX-TGD220 series (page 3)

Press [ ] or [ ] repeatedly to select the desired volume.
   • To turn the ringer off, press and hold [ ] until the unit beeps.
Useful features during a call

Hold
2. [•]: “Hold” → [SELECT]
3. To release hold, press [•].
Note:
• After holding for 10 minutes, the call is disconnected.

Mute
2. To return to the call, press [MUTE].
Note:
• [MUTE] is a soft key visible on the display during a call.

Flash
[FLASH] allows you to use the special features of your host PBX such as transferring an extension call, or accessing optional telephone services.
Note:
• To change the flash time, see page 24.

For call waiting or Call Waiting Caller ID service users
To use call waiting or Call Waiting Caller ID, you must first subscribe with your service provider/telephone company.
This feature allows you to receive calls while you are already talking on the phone. If you receive a call while on the phone, you will hear a call waiting tone.
If you subscribe to both Call Waiting and Call Waiting with Caller ID services, the 2nd caller’s information is displayed on the handset that is in use after you hear the call waiting tone.

1. Press [CALL WAIT] to answer the 2nd call.
2. To switch between calls, press [CALL WAIT].
Note:
• Please contact your service provider/telephone company for details and availability of this service in your area.

Temporary tone dialing (for rotary/pulse service users)
Press [TONE] before entering access numbers which require tone dialing.

Handset clarity booster
This feature can improve sound clarity when the handset is used in an area where there may be interference. During an outside call, this feature is turned on automatically when necessary.
• When this feature is turned on, 800 [TONE] is displayed.

Call share
You can join an existing outside call.
To join the conversation, press [••] when the other unit is on an outside call.
Note:
• A maximum of 3 parties (including 1 outside party) can join a conversation using 2 extensions. (3-way conference)
• To prevent other users from joining your conversations with outside callers, turn call sharing mode off (page 24).

Transferring calls, conference calls
Outside calls can be transferred or a conference call with an outside party can be made between 2 handsets.
1. During an outside call, press [INTERCOM].
When 3 or more handsets are registered:
Making/Answering Calls

[•]: Select the desired unit. → [SELECT]

2 Wait for the paged party to answer.
   • If the paged party does not answer, press [•] to return to the outside
call.

3 To complete the transfer:
   Press [OFF].
   To establish a conference call:
   [MENU] → [•] "Conf." → [SELECT]
   • To leave the conference, press [OFF].
   The other 2 parties can continue the
   conversation.
   • To put the outside call on hold:
     [MENU] → [•] "Hold" →
     [SELECT]
   To resume the conference: [MENU]
     → [•] "Conf." → [SELECT]
   • To cancel the conference: [MENU] →
     [•] "Stop conference" →
     [SELECT]
   You can continue the conversation
   with the outside caller.

Intercom

Intercom calls can be made between
handsets.

Note:
• When paging unit(s), the paged unit(s)
    beeps for 1 minute.
• If you receive an outside call while taking
    on the Intercom, you hear 2 tones.
To answer the call with the handset, press
[OFF], then press [•].

Making an intercom call

1 [INTERCOM],
   When 3 or more handsets are
   registered:
   [•]: Select the desired unit. → [SELECT]
   2 When you finish talking, press [OFF].

Answering an intercom call

1 Press [INTERCOM] or [•] to answer
   the page.

Phonebook

You can add 100 names (16 characters max.) and phone numbers (24 digits max.) to the phonebook, and assign each phonebook entry to the desired group.

Important:
- All entries can be shared by any registered handset.

Adding phonebook entries
1. [ ] or [ ]  → [MENU]
2. [ ]: "Add new entry"  →  [SELECT]
3. Enter the party’s name.  →  [OK]
4. Enter the party’s phone number.  →  [OK]
5. [ ]: Select the desired group.  →  [SELECT] 2 times  →  [OFF]

Character table for entering names
While entering characters, you can switch between uppercase and lowercase by pressing [ ] (A/B).

<table>
<thead>
<tr>
<th>Key</th>
<th>Character</th>
</tr>
</thead>
<tbody>
<tr>
<td>1</td>
<td>&amp; ' ( ) * ,</td>
</tr>
<tr>
<td>2</td>

</tr>
<tr>
<td></td>
<td>m n o 6</td>
</tr>
<tr>
<td>7</td>
<td>P Q R S 7</td>
</tr>
<tr>
<td></td>
<td>p q r s 7</td>
</tr>
</tbody>
</table>

- To enter another character that is located on the same dial key, first press [ ] to move the cursor to the next space,
- If you do not press any dial key within 5 seconds after entering a character, the character is fixed and the cursor moves to the next space.
- “__” in the above table represents a single space.

Erasing the character or number
Press [ ] or [ ],  →  [CLEAR]
- Press and hold [CLEAR] to erase all characters or numbers.

Storing a radial list number to the phonebook
Phone numbers of up to 24 digits can be stored in the phonebook.
1. [ ] REDIAL
2. [ ]: Select the desired phone number.  →  [SAVE]
3. To store the name, continue from step 3.

Storing caller information to the phonebook
1. [ ] CID
2. [ ]: Select the desired entry.
   - To edit the number: [MENU]  →  [ ]
     "Edit"  →  [SELECT]
     Press [EDIT] repeatedly until the phone number is shown in the desired format. And then, press [SAVE]. Go to step 5.
3. [MENU]

For assistance, please visit http://www.panasonic.com/help
Groups

Groups can help you find entries in the phonebook quickly and easily. You can change the names of groups assigned for phonebook entries ("Friends", "Family", etc.). By assigning different ringer tones for different groups of callers, you can identify who is calling (ring ID), if you have subscribed to Caller ID service.

Changing group names/setting ringer ID

The default group name is "Group 1" to "Group 9".

1 [01] or [0-9] 
2 [*]: "Group" 
3 [SELECT]
4 [*]: Select the desired group. 
5 [SELECT]
6 To change group names
7 [*]: "Group name" 
8 [SELECT]
9 Edit the name (10 characters max.). 
10 [SAVE]
11 To set group ringer tone
12 [*]: Select the current setting of the group ringer tone. 
13 [SELECT]
14 [SAVE]
15 [OFF]

Finding and calling from a phonebook entry

1 [01] or [0-9] 
2 To scroll through all entries
3 [*]: Select the desired entry.
4 To search by first character
5 [0-9]: Press the dial key (0 to 9) which contains the character you are searching for (page 18).
6 [*]: Scroll through the phonebook if necessary.

To search by group
7 [GROUP]
8 [SELECT]
9 [*]: Select the desired group. 
10 [SELECT]
11 [*]: Scroll through the phonebook if necessary.

Editing entries

1 Find the desired entry (page 19).
2 [MENU] → [*]: "Edit" 
3 Edit the name if necessary. 
4 Edit the phone number if necessary. 
5 [SELECT] 2 times
6 [OFF]

Erasing entries

Erasing an entry

1 Find the desired entry (page 19).
2 [MENU] → [*]: "Erase" 
3 [*]: "Yes" 
4 [SELECT]
5 [OFF]

Erasing all entries

1 [01] or [0-9] 
2 [MENU]
3 [*]: "Erase all" 
4 [*]: "Yes" 
5 [SELECT]
6 [OFF]

Chain dial

This feature allows you to dial phone numbers in the phonebook while you are on a call. This feature can be used, for example, to dial a calling card access number or bank account PIN that you have stored in the phonebook, without having to dial manually.

1 During an outside call, press [MENU].

For assistance, please visit http://www.panasonic.com/help
Phonebook

2 [♦]: "Phonebook" → [SELECT]
3 [♦]: Select the desired entry.
4 Press [CALL] to dial the number.

Note:

• When storing a calling card access number and your PIN in the phonebook as one phonebook entry, press [4] (Pause) to add pauses after the number and PIN as necessary (page 15).
• If you have rotary/pulse service, you need to press [3] (TONE) before pressing [MENU] in step 1 to change the dialing mode temporarily to tone. When adding entries to the phonebook, we recommend adding [3] (TONE) to the beginning of phone numbers you wish to chain dial (page 16).

Speed dial
You can assign 1 phone number to each of the dial keys ([1] to [6]) on the handset.

Adding phone numbers to speed dial keys

■ By entering phone numbers:
1 Press and hold the desired speed dial key ([1] to [6]). → [ADD]
2 [♦]: "Manual" → [SELECT]
3 Enter the party’s name (16 characters max.). → [OK]
4 Enter the party’s phone number (24 digits max.). → [OK]
5 [SELECT] → [OFF]

■ From the shared phonebook:
1 Press and hold the desired speed dial key ([1] to [6]). → [ADD]
2 [♦]: "Phonebook" → [SELECT]
3 [♦]: Select the desired entry.
4 [SAVE] → [OFF]

Note:

• If you edit a phonebook entry which is assigned to a speed dial key, the edited entry does not transfer to the speed dial key.

Editing an entry

1 Press and hold the desired speed dial key ([1] to [6]). → [MENU]
2 [♦]: "Edit" → [SELECT]
3 Edit the name if necessary. → [OK]
4 Edit the phone number if necessary. → [OK]
5 [SELECT] → [OFF]

Erasing an entry

1 Press and hold the desired speed dial key ([1] to [6]). → [MENU]
2 [♦]: "Erase" → [SELECT]
3 [♦]: "Yes" → [SELECT]
4 [OFF]

Viewing an entry/Making a call

1 Press and hold the desired speed dial key ([1] to [6]).
2 To make a call, press [♦].

For assistance, please visit http://www.panasonic.com/help
Menu list

To access the features, there are 2 methods.

- Scrolling through the display menus
  1. [MENU]
  2. Press [>] or [<] to select the desired menu. → [SELECT]
  3. Press [>] or [<] to select the desired item from the next sub-menus. → [SELECT]
  4. Press [>] or [<] to select the desired setting. → [SAVE]

- Using the direct command code
  1. [MENU] → Enter the desired code.
     Example: Press [MENU][2][1][3].
  2. Select the desired setting. → [SAVE]

Note:
• To exit the operation, press [OFF].
• In the following table, < > indicates the default settings.
• In the following table, [GR] indicates the reference page number.
• Display menu order and sub-menu may vary depending on your model.

Displaying customer support

### Notes

1. KX-TGD220 series: page 3.
2. If you program these settings using one of the units, you do not need to program the same item using another unit.
3. This menu is not displayed when scrolling through the display menus. It is only available in direct command code.
4. This feature allows the unit to automatically adjust the date and time each time caller information including date and time is received.
5. To turn this feature on, select “Caller ID auto”. To turn this feature off, select “Manual”. (Caller ID subscribers only)
6. To use this feature, set the date and time first (page 13).
7. If you subscribe to a distinctive ring service (such as IDENT-A-RING), select a tone (tone 1 to 2). If you select a melody, you cannot distinguish lines by their ringers.
8. The preset melodies in this product (“Tone 3”, “Tone 5”, “Melody 1”, “Melody 10”) are used with permission of © 2012 Copyrights Vision Inc.
9. If you subscribe to a Caller ID service and want to view the caller’s information after lifting up the handset to answer a call, turn off this feature.

For assistance, please visit http://www.panasonic.com/help

24
*8 The flash time depends on your telephone exchange or host PBX. Contact your PBX supplier if necessary. The setting should stay at "700 ms" unless pressing [FLASH] fails to pick up the calling caller.

*9 Generally, the line mode setting should not be changed. This setting automatically maintains receiver volume at the proper level depending on the current telephone line condition. Set the line mode to "On" if telephone line condition is not good.

### Alarm
An alarm sounds at the set time for 3 minutes once or daily. Alarm can be set for each handset.

**Important:**
- Make sure the unit's date and time setting is correct (page 13).

1. [MENU] [2] [0] [0]
2. [>] Select the desired alarm option. → [SELECT]

<table>
<thead>
<tr>
<th>Option</th>
<th>Description</th>
</tr>
</thead>
<tbody>
<tr>
<td>Off</td>
<td>Turns alarm off. Go to step 7.</td>
</tr>
<tr>
<td>Once</td>
<td>An alarm sounds once at the set time.</td>
</tr>
<tr>
<td>Daily</td>
<td>An alarm sounds daily at the set time. Go to step 4.</td>
</tr>
</tbody>
</table>

3. Enter the desired month and date. → [OK]
4. Set the desired time.
5. [>] Select "AM" or "PM". → [OK]
6. [>] Select the desired alarm tone. → [SELECT]
   - We recommend selecting a different ringer tone from the one used for outside calls.
7. [SELECT] → [OFF]

**Note:**
- To stop the alarm, press [OFF] or place the handset on the base unit or charger.
- When the handset is in use, the alarm will not sound until the handset is in standby mode.

### Silent mode
Silent mode allows you to select a period of time during which the handset and/or base unit will not ring for outside calls. This feature is useful for time periods when you do not want to be disturbed, for example, while sleeping. Silent mode can be set for each unit.

**Important:**
- Make sure the unit's date and time setting is correct (page 13).
- We recommend turning the base unit ringer off (page 15) in addition to turning the silent mode on.
- If you have set the alarm, the alarm sounds even if the silent mode is turned on.

**Turning silent mode on/off**

1. [MENU] [2] [0] [0]
2. [>] Select the desired setting. → [SAVE]
   - If you select "Off", press [OFF] to exit.
3. Enter the desired hour and minute you wish to start this feature.
4. [>] Select "AM" or "PM". → [OK]
5. Enter the desired hour and minute you wish to end this feature.
6. [>] Select "AM" or "PM".
7. [SAVE] → [OFF]

**Changing the start and end time**

1. [MENU] [2] [0] [7]
2. Continue from step 3 "Turning silent mode on/off", page 25.
Call block

This feature allows the unit to reject calls when:
- the unit receives a call from a phone number stored in the call block list as unwanted ("Storing unwanted callers", page 26).
- the unit receives a call without phone number ("Blocking incoming calls that have no phone number", page 26).

When a call is received, the unit rings briefly*1 while caller information is being received. If the caller’s phone number matches an entry in the call block list, the unit emits no sound to the caller, and disconnects the call. (Caller ID subscribers only)

*1 This is called first ring. If you do not want the first ring to sound, turn this setting to "Off" (page 26).

Important:
- Rejected calls are logged in the caller list.

Storing unwanted callers

You can store up to 60 phone numbers in the call block list.

Important:
- We recommend storing 10 digits (including the area code). If only 7 digits are stored, all numbers that have the same last 7 digits will be blocked.

From the call list:
1 [☆] CID
2 [☆]: Select the entry to be blocked.
   - To edit the number: [MENU] → [☆]: "Edit" → [SELECT]
     Press [EDIT] repeatedly until the phone number is shown in the 10-digit format. And then, press [SAVE]. Go to step 5.
3 [MENU]
4 [☆]: "Save CID" → [SELECT]
5 [☆]: "Call block" → [SELECT]
6 [☆]: "Yes" → [SELECT]
7 Edit the phone number if necessary (24 digits max.).

8 [SAVE] → [OFF]
   - By entering phone numbers:
   1 [MENU] [☆] [7]
   2 [MENU] → [☆]: "Add" → [SELECT]
   3 Enter the phone number (24 digits max).
     - To erase a digit, press [CLEAR].
   4 [SAVE] → [OFF]

Blocking incoming calls that have no phone number

You can reject calls when no phone number is provided, such as private callers or out of area calls.
1 [MENU] [☆] [8] [0]
2 [☆]: Select the desired setting. → [SAVE] → [OFF]

Setting the first ring for the call block list

If you do not want the first ring from a number on the call block list to sound, turn the first ring setting to "off". The default setting is "on".

1 [MENU] [☆] [6] [0]
2 [☆]: Select the desired setting. → [SAVE] → [OFF]

Viewing/editing/erasing call block numbers

1 [MENU] [☆] [7]
2 [☆]: Select the desired entry.
   - To exit, press [OFF].
3 To edit a number:
   [EDIT] → Edit the phone number. → [SAVE] → [OFF]
   To erase a number:
   [ERASE] → [☆]: "yes" → [SELECT] → [OFF]

Note:
- When editing, press the desired dial key to add, [CLEAR] to erase.
- When viewing, "Block w/o num" is displayed if the blocking incoming calls...
Other programming

Changing the handset name

Each handset can be given a customized name ("Bob", "Kitchen", etc.). This is useful when you make intercom calls between handsets. You can also select whether or not the handset name is displayed in standby mode. The default setting is "no". If you select "yes" without entering any handset name, "handset 1" to "handset 6" is displayed.

1. [MENU] 3 1 0 0
2. Enter the desired name (max. 10 characters; page 18).
3. [SAVE]
4. [†]: Select the desired setting. → [SELECT] 2 times → [OFF]

Deregistering a handset

A handset can cancel its own registration to the base unit, or other handsets registered to the same base unit. This allows the handset to end its wireless connection with the system.

1. [MENU] 0 1 1 0
   * All handsets registered to the base unit are displayed.
2. [†]: Select the handset you want to cancel. → [SELECT]
3. [†]: "on" → [SELECT] → [OFF]

For assistance, please visit http://www.panasonic.com/help
Using Caller ID service

Important:
- This unit is Caller ID compatible. To use Caller ID features, you must subscribe to a Caller ID service. Contact your service provider/telephone company for details.

Caller ID features

When an outside call is being received, the caller information is displayed.
Caller information for the last 50 callers is logged in the caller list from the most recent call to the oldest.
- If the unit cannot receive caller information, the following is displayed:
  - "Out of area": The caller dials from an area which does not provide a Caller ID service.
  - "Private caller": The caller requests not to send caller information.
  - "Long distance": The caller makes a long distance call.
- If the unit is connected to a PBX system, caller information may not be properly received. Contact your PBX supplier.

Missed calls

If a call is not answered, the unit treats it as a missed call. The display shows "Missed call".

Note:
- Even when there are unviewed missed calls, "Missed call" disappears from the standby display if the following operation is performed by one of the units:
  - A handset is replaced on the base unit or charger.
  - Pressing [OFF] on a handset.

Phonebook name display

When caller information is received and it matches a phone number stored in the phonebook, the stored name in the phonebook is displayed and logged in the caller list.

Talking Caller ID

Available for:
KX-TGD220 series (page 3)

This feature lets you know who is calling without looking at the display.
To use this feature, you must:
- subscribe to a Caller ID service of your service provider/telephone company.
- turn this feature on (page 23).
When caller information is received, the handsets and/or base unit announce the caller’s name or telephone number received from your service provider/telephone company following every ring.
The unit announces in English only.
- Name pronunciation may vary. This feature may not pronounce all names correctly.
- Caller ID service has a limit of how many characters can be displayed. If the caller’s name is too long, the unit may not be able to display or announce the entire name.

Phonebook name announcement

When caller information is received and it matches a phone number stored in the phonebook, the stored name in the phonebook is announced.

Caller list

Important:
- Make sure the unit’s date and time setting is correct (page 13).

Viewing the caller list and calling back

1. [¥] CID
2. Press [¥] to search from the most recent call.
3. To call back, press [¥].
   To exit, press [OFF].
Editing a caller’s phone number

You can edit a phone number in the caller list by removing its area code and/or the long distance code “1”.

1 [*] CID
2 [*]: Select the desired entry.
3 [MENU] → [*]: “Edit” → [SELECT]
4 Press [EDIT] repeatedly until the phone number is shown in the desired format.
5 [*]

Note:
- The number edited in step 4 will not be saved in the caller list.

Erasing selected caller information

1 [*] CID
2 [*]: Select the desired entry.
3 [ERASE] → [†]: “Yes” → [SELECT] → [OFF]

Erasing all caller information

1 [*] CID
2 [ERASE] → [†]: “Yes” → [SELECT] → [OFF]

Caller ID number auto edit feature

Once you call back an edited number, the unit which was used to call back remembers the area code and format of the edited number. The next time someone calls from the same area code, caller information is customized by the unit as follows:
- When the call is being received, the Caller ID number is displayed in the same format as the edited number.
- After the call has ended, the caller’s phone number is displayed in the same format as the edited number, when reviewed from the caller list.

For example, you can use this feature to set the unit to ignore the area code of callers in your area, so that you can call these local numbers using caller information without dialing the area code.

To activate this feature, you must edit an entry in the caller list, then call that number. After that, phone numbers from that caller’s area code are edited automatically.

This feature can be set for each unit (page 23). The default setting is “On”.

Note:
- Phone numbers from the 4 most recently edited area codes are automatically edited.

For assistance, please visit http://www.panasonic.com/help
Answering System

Available for: KX-TGD220 series (page 3)

The answering system can answer and record calls for you when you are unavailable to answer the phone. You can also set the unit to play a greeting message but not to record caller messages by selecting “Greeting only” as the recording time setting (page 34).

Important:
- Make sure the unit's date and time setting is correct (page 13).

Memory capacity (including your greeting message)
The total recording capacity is about 17 minutes. A maximum of 64 messages can be recorded.

Note:
- When message memory becomes full:
  - “Messages full” is shown on the handset display.
  - The ANSWER ON/OFF indicator on the base unit flashes rapidly if the answering system is turned on.
  - If you use the pre-recorded greeting message, the unit automatically switches to another pre-recorded greeting message asking callers to call again later.
  - If you recorded your own greeting message, the same message is still announced to callers even though their messages are not recorded.

Greeting message

When the unit answers a call, a greeting message is played to callers. You can use either:
- your own greeting message
- a pre-recorded greeting message

Recording your greeting message

1 [MENU] 3 0 2
2 [“”]: “Yes” -> [SELECT]
3 After a beep sounds, hold the handset about 20 cm (8 inches) away and speak clearly into the microphone (2 minutes max.).
4 Press [STOP] to stop recording. -> [OFF]

Using a pre-recorded greeting message

The unit provides 2 pre-recorded greeting messages:
- If you erase or do not record your own greeting message, the unit plays a pre-recorded greeting asking callers to leave a message.
- If the message recording time (page 34) is set to “Greeting only”, callers’ messages are not recorded and the unit plays a different pre-recorded greeting message asking callers to call again.

Turning the answering system on/off

Base unit
Press [ANSWER ON/OFF] to turn on/off the answering system.

For assistance, please visit http://www.panasonic.com/help
Answering System

Reseting to a pre-recorded greeting message
If you want to use a pre-recorded greeting message once you record your own greeting message, you need to erase your own greeting message.
1 [MENU] 0 0 0
2 [YES] → [OFF]

Playing back the greeting message
1 [MENU] 0 0 0
2 To exit, press [OFF].

Listening to messages

Using the base unit
When new messages have been recorded:
- [····] on the base unit flashes.
- “New message” is displayed.
Press [····] (PLAY).
- If new messages have been recorded, the base unit plays back new messages.
- If there are no new messages, the base unit plays back all messages.

Operating the answering system during playback

#### Editing the number before calling back

2. [†]: "Edit & Call" → [SELECT]  
3. Press [EDIT] repeatedly until the phone number is shown in the desired format (page 29). → [ ]

### Erasing all messages

1. [MENU]33306  
2. [†]: "Yes" → [SELECT] → [OFF]

### Remote operation

Using a touch-tone phone, you can call your phone number from outside and access the unit to listen to messages or change answering system settings. The unit’s voice guidance prompts you to press certain dial keys to perform different operations.

### Remote access code

A 3-digit remote access code must be entered when operating the answering system remotely. This code prevents unauthorized parties from listening to your messages remotely. The default setting is “111”.

### Important:

- To prevent unauthorized access to this product, we recommend that you regularly change the remote code.

1. [MENU]63006  
2. Enter the desired 3-digit remote access code.  
3. [SAVE] → [OFF]

#### Deactivating remote operation

Press 111 in step 2 on “Remote access code”, page 32.  
- The entered remote access code is deleted.

#### Using the answering system remotely

1. Dial your phone number from a touch-tone phone.  
2. After the greeting message starts, enter your remote access code.  
3. Follow the voice guidance prompts as necessary or control the unit using remote commands (page 33).  
4. When finished, hang up.

### Voice guidance

- **When the English voice guidance is selected**
  During remote operation, the unit’s voice guidance starts and prompts you to press 1 to perform a specific operation, or press 2 to listen to more available operations.

- **When the Spanish voice guidance is selected**
  Start the voice guidance, press 8. The voice guidance announces the available remote commands (page 33).

**Note:**

- If you do not press any dial keys within 10 seconds after a voice guidance prompt, the unit disconnects your call.
Remote commands
You can press dial keys to access certain answering system functions without waiting for the voice guidance to prompt you.

</tbody>
</table>

*1 If pressed within the first 5 seconds of a message, the previous message is played.
*2 For English voice guidance only
*3 For Spanish voice guidance only

Turning on the answering system remotely
1. Dial your phone number from a touch-tone phone.
2. Let the phone ring 15 times.
   - A long beep is heard.
3. Enter your remote access code within 10 seconds after the long beep.
   - The greeting message is played back.
   - You can either hang up, or enter your remote access code again and begin remote operation (page 32).

Answering system settings

Call screening
While a caller is leaving a message, you can listen to the call through the handset’s speaker. To adjust the speaker volume, press [4] or [5] repeatedly.
You can answer the call by pressing [6].
Call screening can be set for each handset.
The default setting is “On”.
1. [MENU] [5] [3] [1] [0]  
2. []: Select the desired setting. →  
3. [SAVE] → OFF

Number of rings before the unit answers a call
You can change the number of times the phone rings “Ring count” before the unit answers calls. You can select 2 to 7 rings, or “Toll saver”.
The default setting is “4 rings”.
“Toll saver”: The unit’s answering system answers at the end of the 2nd ring when new messages have been recorded, or at the end of the 5th ring when there are no new messages. If you call your phone from outside to listen to new messages (page 32), you know that there are no new messages when the phone rings for the 3rd time. You can then hang up without being charged for the call.
1. [MENU] [5] [2] [2] [1]  
2. []: Select the desired setting. →  
3. [SAVE] → OFF

For voice mail service subscribers
If you subscribe to a flat-rate service package that includes Caller ID, call waiting, voice mail, and unlimited local/regional/toll distance calls, please note the following:
- To use the voice mail service provided by your service provider/telephone company rather than the unit’s answering system, turn off the answering system (page 30).
To use this unit’s answering system rather than the voice mail service provided by your service provider/telephone company, please contact your service provider/telephone company to deactivate your voice mail service. If your service provider/telephone company cannot do this:

- Set this unit’s “Ring count” setting so that this unit’s answering system answers calls before the voice mail service of your service provider/telephone company does. It is necessary to check the number of rings required to activate the voice mail service provided by your service provider/telephone company before changing this setting.
- Change the number of rings of the voice mail service so that the answering system can answer the call first. To do so, contact your service provider/telephone company.

---

**Caller’s recording time**

You can change the maximum message recording time allowed for each caller. The default setting is “3 min”.

1. [MENU] 3 3 0 0
2. [•]: Select the desired setting. ➔
   [SAVE] ➔ [OFF]

---

**Selecting “Greeting only”**

You can select “Greetings only” which sets the unit to announce a greeting message to callers but not record messages. Select “Greetings only” in step 2 on “Caller’s recording time”, page 34.

**Note:**

- When you select “Greetings only”:
  - If you do not record your own message, the unit will play the pre-recorded greeting-only message asking callers to call again later.
  - If you use your own message, record the greeting-only message asking callers to call again later (page 30).
Voice mail service

Voice mail is an automatic answering service offered by your service provider/telephone company. After you subscribe to this service, your service provider/telephone company’s voice mail system answers calls for you when you are unavailable to answer the phone or when your line is busy. Messages are recorded by your service provider/telephone company, not your telephone. Please contact your service provider/telephone company for details of this service.

Important:
• To use the voice mail service provided by your service provider/telephone company rather than the unit’s answering system, turn off the answering system (page 30). For details, see page 33.

Storing the voice mail (VM) access number

In order to listen to your voice mail messages, you must dial your service provider/telephone company’s voice mail access number. Once you have stored your voice mail access number, you can dial it automatically (page 35).

1 [MENU] 4 3 3 1
2 Enter your access number (24 digits max.) → [SAVE] → [OFF]

Note:
• When storing your voice mail access number and your mailbox password, press [ ] (Pause) to add pauses (page 15) between the access number and the password as necessary. Contact your service provider/telephone company for the required pause time.

Example:
1-222-333-4444 PPPP 8888
VM access Pauses Password number

To erase the voice mail access number
1 [MENU] 4 3 3 1
2 Press and hold [CLEAR] until all digits are erased. → [SAVE] → [OFF]

Voice mail (VM) tone detection

Your service provider/telephone company sends special signals (sometimes called “voice mail tones” or “stutter tones”) to the unit to let you know you have new voice mail messages. If you hear a series of dial tones followed by a continuous dial tone after you press [ ], you have new voice mail messages. Soon after you hang up a call or after the phone stops ringing, your unit checks the phone line to see if new voice mail messages have been recorded.

Turn this feature off when:
– You do not subscribe to voice mail service.
– Your service provider/telephone company does not send voice mail tones.
– Your phone is connected to a PBX.
If you are not sure which setting is required, contact your service provider/telephone company.

Turning VM tone detection on/off

The default setting is “on”.

1 [MENU] 4 3 3 2
2 [ ] Select the desired setting. → [SAVE] → [OFF]

Listening to voice mail messages

The unit lets you know that you have new voice mail messages in the following way:
– “New Voice Mail” is displayed if message indication service is available.

1 [MENU] 4 3 3 0
• The speakerphone turns on.
2 Follow the pre-recorded instructions.
3 When finished, press [OFF].
Useful Information

Note:
- If the handset still indicate there are new messages even after you have listened to all new messages, turn it off by pressing and holding [ ] until the handset beeps.

Wall mounting

Note:
- Make sure that the wall and the fixing method are strong enough to support the weight of the unit.

Base unit

1. Lead the telephone line cord through the hole in the wall mounting adaptor in the direction of the arrow.

2. Tuck the telephone line cord inside the wall mounting adaptor (A). Connect the AC adaptor cord and telephone line cord (B).

3. Insert the hooks on the wall mounting adaptor into holes 1 and 2 on the base unit.

4. Adjust the adaptor to hold the base unit, then push it in the direction of the arrow until it clicks into place.

5. Mount the unit on a wall then slide down to secure in place.
- This product is compliant with the following wall phone plate sizes (2 types):
  1. 83 mm (3 1/4 inches)
  2. 102 mm (4 inches)

For assistance, please visit http://www.panasonic.com/help
Fit the slots of the unit onto the corresponding wall phone plate tabs for (3 ) and (4) respectively.

To remove the wall mounting adaptor
While pushing down the release levers (A ), remove the adaptor (B ).

Charger
Drive the screws (1 ) (not supplied) into the wall.
2 27.2 mm (1 1/8 inches)

| The unit does not record new messages. | - The answering system is turned off. Turn it on (page 30).  
- The message memory is full. Erase unnecessary messages (page 31).  
- The recording time is set to “Greeting only”. Change the setting (page 34).  
- Your service provider/telephone company’s voice mail service may be answering your calls before the unit’s answering system can answer your calls. Change the unit’s number of rings setting (page 33) to a lower value, or contact your service provider/telephone company. |
| I cannot operate the answering system remotely. | - The remote access code is not set. Set the remote access code (page 32).  
- You are entering the wrong remote access code. If you have forgotten your remote access code, enter the remote access code setting to check your current code (page 32).  
- The answering system is turned off. Turn it on (page 33). |
| The unit does not emit the specified number of rings. | - If the first ring is turned off, the number of rings decreases by 1 from the specified number of rings. |

### Voice mail

<table>
<thead>
<tr>
<th>Problem</th>
<th>Cause/solution</th>
</tr>
</thead>
</table>
| "New Voice Mail" is shown on the handset display. How do I remove this message from the display? | - This notification is displayed when your service provider/telephone company’s voice mail service (not the unit’s answering system) has recorded a message for you. Typically you can remove this notification from the display by listening to the message. To listen to the message, dial the voice mail number provided by your service provider/telephone company (for most cases, this will be your own phone number), and follow the voice instructions.  
- Depending on your service provider/telephone company, you may need to remove all messages from your voice mailbox to remove the notification. You can also remove this notification by pressing and holding [#] until the unit beeps. |

### Liquid damage

<table>
<thead>
<tr>
<th>Problem</th>
<th>Cause/solution</th>
</tr>
</thead>
<tbody>
<tr>
<td>Liquid or other form of moisture has entered the handset/base unit.</td>
<td>• Disconnect the AC adaptor and telephone line cord from the base unit. Remove the batteries from the handset and leave to dry for at least 3 days. After the handset/base unit are completely dry, reconnect the AC adaptor and telephone line cord. Insert the batteries and charge fully before use. If the unit does not work properly, contact an authorized service center.</td>
</tr>
</tbody>
</table>

**Caution:**
- To avoid permanent damage, do not use a microwave oven to speed up the drying process.
FCC and other information

This equipment complies with Part 68 of the FCC rules and the requirements adopted by the ACTA. On the bottom of this equipment is a label that contains, among other information, a product identifier in the format US:ACJ----------.

If requested, this number must be provided to the telephone company.

Registration No.............(found on the bottom of the unit)
Ringer Equivalence No. (REN).......0.1B

A plug and jack used to connect this equipment to the premises wiring and telephone network must comply with the applicable FCC Part 68 rules and requirements adopted by the ACTA. A compliant telephone cord and modular plug is provided with the product. It is designed to be connected to a compatible modular jack that is also compliant.

The REN is used to determine the number of devices that may be connected to a telephone line. Excessive RENs on a telephone line may result in the devices not ringing in response to an incoming call. In most but not all areas, the sum of RENs should not exceed five (5.0). To be certain of the number of devices that may be connected to a line, as determined by the total RENs, contact the local telephone company. For products approved after July 23, 2001, the REN for the product is part of the product identifier that has the format US:AAAEQ###TXXXX. The digits represented by ## are the REN without a decimal point (e.g., 03 is a REN of 0.3).

If this equipment causes harm to the telephone network, the telephone company will notify you in advance that temporary discontinuance of service may be required. But if advance notice isn't practical, the telephone company will notify the customer as soon as possible. Also, you will be advised of your right to file a complaint with the FCC if you believe it is necessary.

The telephone company may make changes in its facilities, equipment, operations or procedures that could affect the operation of the equipment. If this happens the telephone company will provide advance notice in order for you to make necessary modifications to maintain uninterrupted service.

If trouble is experienced with this equipment, for repair or warranty information, please contact a Factory Service Center or other Authorized Servicer. If the equipment is causing harm to the telephone network, the telephone company may request that you disconnect the equipment until the problem is resolved.

Connection to party line service is subject to state tariffs. Contact the state public utility commission, public service commission or corporation commission for information.

If your home has specially wired alarm equipment connected to the telephone line, ensure the installation of this equipment does not disable your alarm equipment. If you have questions about what will disable alarm equipment, consult your telephone company or a qualified installer.

This equipment is hearing aid compatible as defined by the FCC in 47 CFR Section 68.316.

When you hold the phone to your ear, noise might be heard in your Hearing Aid. Some Hearing Aids are not adequately shielded from external RF (radio frequency) energy. If noise occurs, use an optional headset accessory or the speakerphone option (if applicable) when using this phone. Consult with your audiologist or Hearing Aid

For assistance, please visit http://www.panasonic.com/help
manufacturer about the availability of Hearing Aids which provide adequate shielding to RF energy commonly emitted by digital devices.

WHEN PROGRAMMING EMERGENCY NUMBERS AND/OR MAKING TEST CALLS TO EMERGENCY NUMBERS:
1) Remain on the line and briefly explain to the dispatcher the reason for the call.
2) Perform such activities in the off-peak hours, such as early morning or late evenings.

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions:
1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.
Privacy of communications may not be ensured when using this phone.

CAUTION:
Any changes or modifications not expressly approved by the party responsible for compliance could void the user’s authority to operate this device.

NOTE:
This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses, and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:
– Reorient or relocate the receiving antenna.
– Increase the separation between the equipment and receiver.
– Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
– Consult the dealer or an experienced radio/TV technician for help.

Some cordless telephones operate at frequencies that may cause interference to nearby TVs and VCRs. To minimize or prevent such interference, the base of the cordless telephone should not be placed near or on top of a TV or VCR. If interference is experienced, move the cordless telephone further away from the TV or VCR. This will often reduce or eliminate interference.

FCC RF Exposure Warning:
1. This product complies with FCC radiation exposure limits set forth for an uncontrolled environment.
2. To comply with FCC RF exposure requirements, the base unit must be installed and operated 20 cm (8 inches) or more between the product and all person’s body.
3. This product may not be collocated or operated in conjunction with any other antenna or transmitter.
4. The handset may be carried and operated with only the specific provided belt-clip. Other non-tested belt-clips or similar body-worn accessories may not comply and must be avoided.

Notice:
1. FCC ID can be found inside the battery compartment or on the bottom of the units.

For assistance, please visit http://www.panasonic.com/help
Compliance with TIA-1083 standard:
Telephone handsets identified with this logo have reduced noise and interference when used with T-Coil equipped hearing aids and cochlear implants.

## Conexiones

### Unidad base

1. Conecte el adaptador de corriente alterna a la unidad presionándolo firmemente.
2. Enganche el cable para fijarlo.
3. Conecte el adaptador de corriente alterna a la toma de corriente.
4. Conecte el cable de la línea telefónica a la unidad, y después a la toma telefónica de una sola línea (RJ11C) hasta que escuche un clic.
5. Si requiere un filtro DSL/ADSL (no incluido) si tiene este tipo de servicio.

**Nota:**

- Use sólo el adaptador de corriente alterna Panasonic PNLV226 que se suministra.

### Cargador

1. Conecte el adaptador de corriente alterna a la toma de corriente.

---

Para obtener ayuda, visite http://www.panasonic.com/help (solo en inglés)
Instalación y carga de la batería

Cargue aproximadamente durante 7 horas.

Notas:
- UTILICE SOLO baterías recargables de Ni-MH tamaño AAA (R03) (A).
- NO utilice baterías Alcalinas, de Manganoso o de Ni-Cd.
- Confirme que las polaridades estén correctas (B, C).
- Cambie el diórfalo de la pantalla.
- Confirme que aparezca “Cargando” (D).

Sugerencias de operación

Teclas de función

Al oprimir una tecla de función, puede seleccionar la función que aparece directamente encima de ella en la pantalla. Preste atención a la pantalla para ver qué funciones están asignadas a las teclas de función durante la operación.

- [A], [B], [C] o [D]: Navegue por diversas listas y elementos.
- [E] (Volumen: [A] o [B]): Ajuste el volumen del receptor o el altavoz mientras habla.
- [F] Vea la entrada del directorio telefónico.
- [G] CID (Identificador de Llamadas): Vea la lista de personas que llamaron.
- [H] REDIAL (Remarcación): Vea la lista de remarcación.

Limited Warranty Coverage
If your product does not work properly because of a defect in materials or workmanship, Panasonic Corporation of North America (referred to as "the warrantor") will, for the length of the period indicated on the chart below, which starts with the date of original purchase ("Limited Warranty period"), at its option either (a) repair your product with new or refurbished parts, or (b) replace it with a new or a refurbished equivalent value product, or (c) refund your purchase price. The decision to repair, replace or refund will be made by the warrantor.

<table>
<thead>
<tr>
<th>Parts</th>
<th>Labor</th>
</tr>
</thead>
<tbody>
<tr>
<td>One (1) Year</td>
<td>One (1) Year</td>
</tr>
</tbody>
</table>

During the "Labor" Limited Warranty period there will be no charge for labor. During the "Parts" Limited Warranty period, there will be no charge for parts. You must mail-in your product prepaid during the Limited Warranty period. This Limited Warranty excludes both parts and labor for batteries, antennas, and cosmetic parts (cabinet). This Limited Warranty only applies to products purchased and serviced in the United States or Puerto Rico. This Limited Warranty is extended only to the original purchaser and only covers products purchased as new.

Mail-In Service--Online

To submit a new repair request and for quick repair status visit our Web Site at http://www.panasonic.com/repair

When shipping the unit carefully pack in a padded shipping carton, include all accessories, and send it prepaid. Include a letter detailing the complaint, a return address and provide a day time phone number where you can be reached. P.O. Boxes are not acceptable. Keep the tracking number for your records. A copy of valid registered receipt is required under the 1 year parts and labor Limited Warranty.

For Limited Warranty service for headsets if a headset is included with this product please follow instructions above.

IF REPAIR IS NEEDED DURING THE LIMITED WARRANTY PERIOD THE PURCHASER WILL BE REQUIRED TO FURNISH A SALES RECEIPT/PROOF OF PURCHASE INDICATING DATE OF PURCHASE, AMOUNT PAID AND PLACE OF PURCHASE. CUSTOMER WILL BE CHARGED FOR THE REPAIR OF ANY UNIT RECEIVED WITHOUT SUCH PROOF OF PURCHASE.
Limited Warranty Limits And Exclusions
This Limited Warranty ONLY COVERS failures due to defects in materials or workmanship, and DOES NOT COVER normal wear and tear or cosmetic damage. The Limited Warranty ALSO DOES NOT COVER damages which occurred in shipment, or failures which are caused by products not supplied by the warrantor, or failures which result from accidents, misuse, abuse, neglect, bug infestation, mishandling, misapplication, alteration, faulty installation, set-up adjustments, misadjustment of consumer controls, improper maintenance, power line surge, lightning damage, modification, introduction of sand, humidity or liquids, commercial use such as hotel, office, restaurant, or other business or rental use of the product, or service by anyone other than a Factory Service Center or other Authorized Servicer, or damage that is attributable to acts of God.

THERE ARE NO EXPRESS WARRANTIES EXCEPT AS LISTED UNDER “LIMITED WARRANTY COVERAGE”. THE WARRANTOR IS NOT LIABLE FOR INCIDENTAL OR CONSEQUENTIAL DAMAGES RESULTING FROM THE USE OF THIS PRODUCT, OR ARISING OUT OF ANY BREACH OF THIS LIMITED WARRANTY. (As examples, this excludes damages for lost time, lost calls or messages, cost of having someone remove or re-install an installed unit if applicable, travel to and from the servicer. The items listed are not exclusive, but are for illustration only.) ALL EXPRESS AND IMPLIED WARRANTIES, INCLUDING THE WARRANTY OF MERCHANTABILITY, ARE LIMITED TO THE PERIOD OF THE LIMITED WARRANTY.

Some states do not allow the exclusion or limitation of incidental or consequential damages, or limitations on how long an implied warranty lasts, so the exclusions may not apply to you.

This Limited Warranty gives you specific legal rights and you may also have other rights which vary from state to state. If a problem with this product develops during or after the Limited Warranty period, you may contact your dealer or Service Center. If the problem is not handled to your satisfaction, then write to the warrantor’s Consumer Affairs Department at the addresses listed for the warrantor.

PARTS AND SERVICE, WHICH ARE NOT COVERED BY THIS LIMITED WARRANTY, ARE YOUR RESPONSIBILITY.

When you ship the product
1. Carefully pack your unit, preferably in the original carton.
2. Attach a letter, detailing the symptom.
3. Send the unit to Panasonic Exchange Center, prepaid and adequately insured.
4. Do not send your unit to Panasonic Corporation of North America listed on the back cover or to executive or regional sales offices. These locations do not repair consumer products.
